

POSSESSION OF MARIJUANA OR ILLEGAL DRUGS IN MARYLAND

Maryland has classified controlled substances into **schedules**.

The three factors that determine the punishment of those convicted of a drug crime in Maryland are the quantity of the drug, the classification of the drug per the **schedules**, and the purpose of the drug's [possession](#).

Production, manufacture and sale of drugs are one of the most serious drug crimes in Maryland.

A common acronym for **possession with intent to distribute drugs is (PWID)**.

In Maryland all a prosecutor has to do to prove PWID is prove the quantity of the drug in the possession of the person charged with the drug crime.

Maryland now have what is called enhanced punishment for those who use juveniles to distribute drugs, specifically target the sale of drugs to minors, or the sale of drugs on or near school property.

Any property that is gained through the sale of illicit substances or used in the course of the drug trade may be seized and forfeited. Frequently, the state or the federal government will seized homes, cars, boats, jewelry as fruits of the drug trade.
